

Color Art Integrated Interiors | Environmental Product Map

1. **Christie MicroTiles**
80% recyclable and 90% recoverable materials; does not radiate heat; uses LEDs for less energy consumption and longer lifecycle
2. **PaperStone**
100% post-consumer recycled paper; VOC-free
3. **Vetrazzo**
100% of glass in Vetrazzo is recycled; VOC-free
4. **Steelcase c:scape**
Cradle to Cradle^{CM} – Silver; 91% recyclable; 33% recycled content
5. **Steelcase Montage**
Cradle to Cradle^{CM} – Silver; typical workstation is 75% recyclable; 45% recycled content
6. **Turnstone Tour**
Cradle to Cradle^{CM} – Silver; 23% recyclable; 64% recycled content
7. **Steelcase EE6**
Cradle to Cradle^{CM} – Silver; Clarity™ finish which uses water-borne materials
8. **Steelcase Answer**
Cradle to Cradle^{CM} – Silver; first ever C2C certified powered workstation
9. **Details Worktools**
Cradle to Cradle^{CM} – Silver
10. **Steelcase Seating: Amia, Think, Leap, Siento, Move, Scoop**
Cradle to Cradle^{CM} – Silver and Gold; Think was first ever C2C certified product
11. **Steelcase Privacy Wall**
Cradle to Cradle^{CM} – Silver; first and only C2C certified moveable wall; 70% recyclable; 37% recycled content
12. **Steelcase Post & Beam**
Cradle to Cradle^{CM} – Silver; 95% recyclable; 58% recycled content

Cradle to Cradle^{CM} certification is a program striving to not only eliminate the negative impact products have on the environment, but to also provide a positive impact on the environment. Playing off the phrase “cradle to grave”, Cradle to Cradle^{CM} is promoting products that will have an ongoing lifecycle versus a lifetime of “downcycling”.
